## Las Vegas CES and T.H.E. Show 2006

By Frank Alles

In the two plus days I had to cover these immense shows, I tried to get into all the rooms that I thought would hold the most promise for both cost-no-object and bang-for-the-buck audio gear. I'm sure that I missed some truly excellent rooms, as it was not physically possible for me to get to every exhibit within my time constraints. This report will cover the highlights of what I consider to be standout rooms. Realize that it is not intended to be comprehensive or definitive, but representative of my own experience and personal listening bias.

### Honorable Mentions

In closing, I'd like to give out a few honorable mentions for other goodies that impressed me both sonically and visually.

My short list includes:

**Room AP2603** Kingsound King full-range electrostatic panel speakers (above \$6k/pr)
